

FRANCISCO FRIAS

FRONT-END ENGINEER

New York City, NY | 347-430-6550 | francisco.frias17@gmail.com | ciscofrias.com | [linkedin](#) | [github](#)

SUMMARY

Dedicated Software Engineer with substantial expertise in cloud development and software engineering. Proficient in creating responsive web applications, collaborating effectively within diverse teams, and leveraging modern technologies to enhance productivity and performance.

PROFESSIONAL EXPERIENCE

Front-end Engineer, Velosaty

Jan 2024 - Present

- Led development of the frontend of a mentorship application built on nextjs and firebase.
- Sorted and assigned tasks on the project Trello board to facilitate efficient workflow, timely completion of deliverables, and clear communication among team members.
- Collaborated with cross-functional teams to rapidly prototype and validate product ideas.
- Created an implemented A/B testing interfaces, leveraging data collection to inform and optimize product decisions.
- Contributed to the deployment of a full-stack web application on Vercel, ensuring seamless integration of frontend and backend components for optimized performance and scalability.

Software Engineer, webeet.io

Jan 2023 - Jan 2024

- Mentored new frontend engineers by providing onboarding support, code reviews with constructive feedback, and guidance on responsive SCSS styling best practices, fostering a collaborative learning environment.
- Developed reusable and maintainable React UI components for an AI assistant that empowers users to discover and support socially responsible businesses.
- Engineered an AI-powered chatbot using the OpenAI API with long context windows to parse data and deliver accurate responses to users.
- Integrated the LangChain framework to orchestrate prompt chaining and memory management in the chatbot, enabling more dynamic, context-aware interactions for end users.

SKILLS

Amazon Web Services · CSS · Docker · EC2 · EFS · Git · HTML · Javascript · MongoDB · Node.js · Photoshop · PostgreSQL · Python · S3 · TypeScript · React · Nextjs · SCSS · TailwindCSS · Software Development · ExpressJS · Jest · Illustrator · AWS CLI · Lambda · Cloud9 · IAM · CodePipeline · Cloudwatch · Langchain

EDUCATION

AWS Cloud Institute

July 2024 - July 2025

Cloud Application Developer | Software Engineering

- Gained expertise in cloud architecture, development, and deployment using AWS services.
- Learned to design scalable, secure, and cost-effective solutions for cloud-based systems.
- Hands-on experience with tools such as AWS Lambda, EC2, S3, Cloud9, Cloudwatch, Amazon CLI, and RDS.
- Strengthened skills in DevOps, CI/CD pipelines, and infrastructure as code (IaC).
- Built and deployed cloud-native applications to enhance performance and reliability.

Masterschool**Dec 2021 - Dec 2022**

Certificate | Software Engineering

- Participated in an immersive 12-month software engineering training program.
- Completed hundreds of hours of practice and real-world industry projects.
- Skills acquired in HTML, CSS, Javascript, React, SCSS, TailwindCSS, Git(Github, Gitlab), Software Development, Node.js, ExpressJS, Typescript, MongoDB, PostgreSQL, Jest, and Docker.

CUNY Brooklyn College**Jan 2015 - May 2018**

Bachelor of Arts (B.A.) | Film Production

CERTIFICATIONS

- **AWS Certified Cloud Practitioner | Validation #:** 91642b4eed564349a5b2967b2e2a9fbd

ADDITIONAL INFORMATION

- **Languages:** English, Spanish
